

ANOTHER INNOVATION FROM BRASSELER USA...

NEW

Brasseler USA introduces the next generation in rotary procedure organization. By updating our standard aluminum bur block to include new silicone inserts, this block's features offer a wide variety benefits for your procedural organization:

- Improved instrument retention: **Burs won't fall out!**
- Configurations for both clinical and lab burs
- Variety of colors
- More versatile layout because each silicone plug can readily accept any shank
- Fully autoclavable
- Validated for both block and instrument sterility
- Customizable to include clinician or practice name, procedure, bur number and silhouette

Contact your Brasseler USA representative to find out how to receive five FREE custom blocks today!
